

## Garden Consulting & GreenThumb Coaching

### Garden Consulting

A consultation provides homeowners with general guidance and advice to help maximize your results and save you time and money. The goal is to help you focus your efforts, increase efficiency, handle day to day problems and tap into your garden's potential.

- *Instruction includes information on:*

- composting
- fertilizing
- general lawn maintenance
- identifying existing plants
- mulching
- plant selection
- planting
- problem prevention, diagnosis and solution recommendations.
- propagation
- pruning
- soil analysis
- sustainable gardening techniques
- watering & water harvesting methods
- .... and more.

- Referrals when appropriate.

### GreenThumb Coaching

Looking for a more hands-on approach? We help you dig right into your project with our GreenThumb Coaching service, working with you side by side.

### Selective Landscaping Service

Weeds out of control? Feeling overwhelmed and don't have time to tackle that overgrown shrub? After meeting for your garden consultation we will sharpen our shears and get to work getting your landscape back to its original beauty.
